

# ACT #3 Getting Started with Visual Studio Code

New Attempt

**Due** No Due Date    **Points** 20    **Submitting** a file upload

**SOFT DEADLINE: 11/6/2023 3:00 PM**

**HARD DEADLINE: 11/6/2023 6:00 PM**

*Sample output*

## Summary

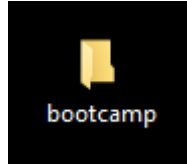

Install Visual Studio Code and create your web page step by step guideline below (in the description)

## Tools

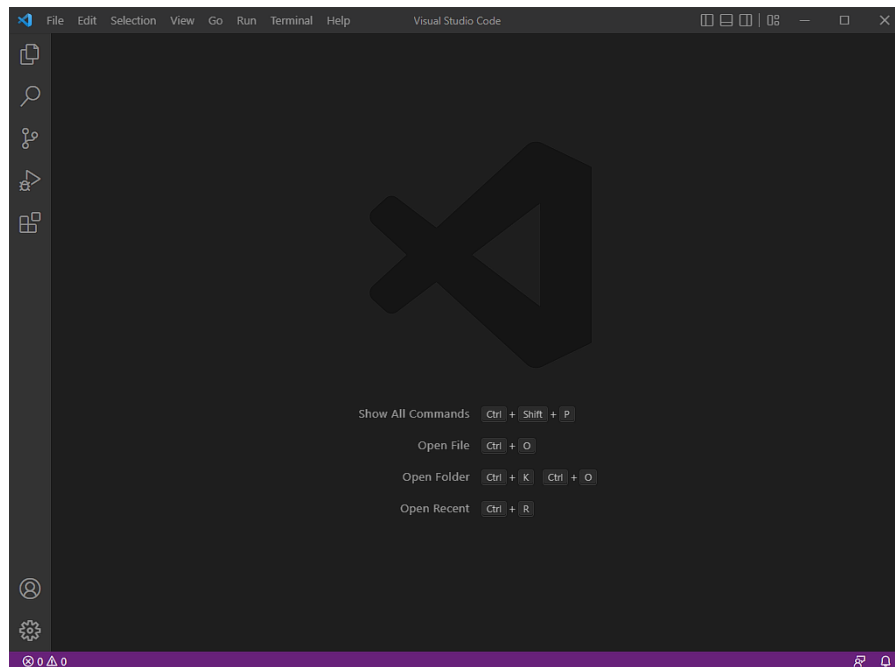

Visual Studio Code

# Instructions

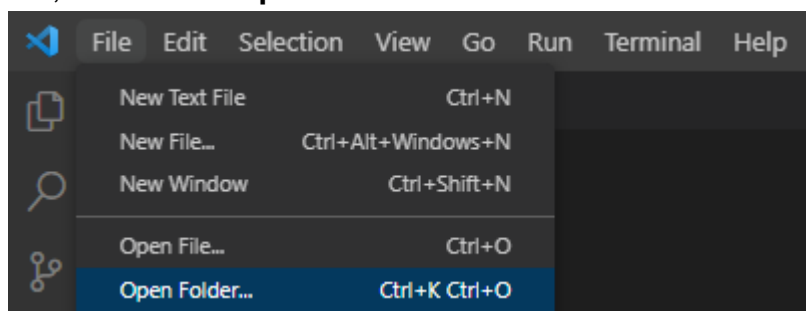

1. [Download and install Visual Studio Code.](https://kodego.instructure.com/courses/379/pages/1-dot-2-visual-studio-code) (<https://kodego.instructure.com/courses/379/pages/1-dot-2-visual-studio-code>)
2. Create a new folder on your [Desktop](https://kodego.instructure.com/courses/379/pages/1-dot-0-essential-computer-terms-and-skills) (<https://kodego.instructure.com/courses/379/pages/1-dot-0-essential-computer-terms-and-skills>), and name it **bootcamp**.

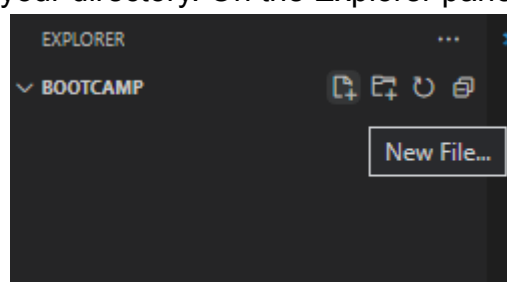

3. Open Visual Studio Code.

4. Select **File** on the top bar, then select **Open Folder**.

5. Navigate to your bootcamp folder, then open it.
6. Click on Select Folder.
7. Visual Studio Code would open your directory. On the Explorer panel, click on the **New File...** option.

8. Visual Studio Code would prompt you for a file name. Enter **burger\_store.html**
9. [Open this link on your browser](https://media.istockphoto.com/id/1254672762/photo/delicious-homemade-hamburger-and-french-fries.jpg?b=1&s=170667a&w=0&k=20&c=a0kPiHhzTncW-_LdM7cXcLiB9KLXuEb8KAJt7AIVuO0=)  (https://media.istockphoto.com/id/1254672762/photo/delicious-homemade-hamburger-and-french-fries.jpg?b=1&s=170667a&w=0&k=20&c=a0kPiHhzTncW-\_LdM7cXcLiB9KLXuEb8KAJt7AIVuO0=). Right-click on it, set its name to **burger.jpg** and save it to your bootcamp folder.
10. Go back to Visual Studio Code and type in the following, replacing content within square brackets [ ].

```
<> hello.html > ...
1  <!DOCTYPE html>
2  <html>
3    <head>
4      <title>My Second Web Page</title>
5    </head>
6    <body>
7      <h1>[YOUR NAME]'s Classic Burger</h1>
8      <p>Get a good taste of fine beef at our restaurant!</p>
9      
10     <h2>Our Menu</h2>
11     <ul>
12       <li>Hamburger - 80 PHP</li>
13       <li>Cheeseburger - 90 PHP</li>
14       <li>Quarter Pounder - 160 PHP</li>
15     </ul>
16     <h2>Rate Us</h2>
17     <form action="https://mail.google.com/mail/u/0/#inbox">
18       <label>Name:</label>
19       <input type="text" placeholder="Enter your name!" /><br />
20       <label>Comment:</label>
21       <textarea placeholder="Tell us what you think!"></textarea><br />
22       <button type="submit">Save</button>
23     </form>
24   </body>
25 </html>
```

11. Save your file by pressing CTRL + S.
12. Test if you did the previous steps correctly by opening your file. Your output should look like this:

# Daiben's Classic Burger

Get a good taste of fine beef at our restaurant!

## Our Menu

- Hamburger - 80 PHP
- Cheeseburger - 90 PHP
- Quarter Pounder - 160 PHP

## Rate Us

Name:

Comment:

12. Submit both the .html file and burger image **only** here as your submission.

## Notes and Tips

- Do not delete your activity files after submission! You might want to use them for your reference in the future.
- Never compress (zip) nor encrypt your file submissions, unless otherwise instructed to do so.
