

# ACT #54 Pet Shop 2

New Attempt

**Due** No Due Date    **Points** 30    **Submitting** a file upload    **File Types** js

**SOFT DEADLINE: 12/20/2023 10:20 AM**

**HARD DEADLINE: 12/20/2023 10:20 AM**

## Instruction

Update your Express files with additional routes.

## Tools

Node.js, Express, Visual Studio Code

## Description

- Update your **index.js** with additional routes.

### index.js

- Have the following API routes that do the following.
  - **PUT /api/pets**

- Adds a new pet to `pets`.
- Require the following properties in the request:
  - `species`
  - `eating_habit`
  - `pet_name`
- Include the following properties in the response:
  - `id`
  - `species`
  - `eating_habit`
  - `pet_name`
- `PUT /api/pets/:id`
  - Edit a pet of with the specified `id`.
  - The following properties can be edited:
    - `species`
    - `eating_habit`
    - `pet_name`
  - The user should be allowed to edit one, two, or three fields at a time.
  - Include the following properties in the response:
    - `id`
    - `species`
    - `eating_habit`
    - `pet_name`
- `DELETE /api/pets/:id`
  - Remove the pet with the specified `id` from the database.
  - The entry in the database would only be cleared, not outright deleted.
  - Include the following properties in the response:
    - `id`
    - `species`
    - `eating_habit`
    - `pet_name`
- Submit **only** your `index.js` file here.
