1. Energy

2. Light

Output goal

## Instruction

Create the following list.

# Tools

Visual Studio Code

## Description

- 1. Open VS Code.
- 2. Create a new .html file. Name it **planner.html**
- 3. Set the title of the .html document to **Teacher's Planner**.
- 4. At the top of the page, add a heading **Gradebook**
- 5. Recreate the following table structure and content exactly as is shown below.

Student		Exam				2nd Exam				Final Grade	
		Q1	Q2	Q3	Grade	Q1	Q2	Q3	Grade		
Code	Name	8	7	7		6	7	7		s/ A.	c/ A.
80549061	John	70%	100%	100%	17.6					17.6	18
80549062	Mary	10%	50%	50%	6.8	100%	100%	50%	16.5	16.5	17
80549063	Claire					50%	50%	50%	10.0	10.0	10.0

- 6. Text formatting (bold text) should be the same.
- 7. Below the table, add another heading **Examination Plan**.
- 8. Recreate the following list structure and content exactly as is shown below.

1. First Grading
  1. Plants
  2. Animals
    - Habitats of Animals
    - Needs of Animals
  3. Parts of the Body
2. Second Grading
  - Weather and Seasons
    1. Sunny
    2. Rainy
  - Earth, Sun, and Moon
    - Earth
      1. Land and Continents
      2. Seas and Oceans
    - Sun and Stars
      1. The Sun
      2. Stars and Constellations
3. Finals Exam
  1. Energy
  2. Light

9. Save your file.
10. Submit your .html file here.

## Notes and Tips

- For multi-part activities such as this one, it is best to focus on one part first before starting with the other.
  - Finish up the table first, then move on to the list. Don't work on them both simultaneously! One finished part is better than two unfinished ones!
