Instruction

Update your ACT #16 HTML and CSS code.

Tools

Visual Studio Code

Description

1. Open VS Code.
2. Open your submission of ACT #16 and the stylesheet.
3. Re-save it (select File > Save As...) as **church_redes.html**.
4. Update your .html and .css, meeting the following requirements (while still retaining element spacing).
 - Add the [following background image](https://thumbs.dreamstime.com/b/grainy-white-paper-surface-as-texture-background-close-up-macro-200678301.jpg)  (<https://thumbs.dreamstime.com/b/grainy-white-paper-surface-as-texture-background-close-up-macro-200678301.jpg>) to replace the current white background.
 - The background image should stay still when scrolling.
 - [Replace the table navigation bar with a `` list.](https://kodego.instructure.com/courses/379/pages/4-dot-8-css-no-js?module_item_id=17581) (https://kodego.instructure.com/courses/379/pages/4-dot-8-css-no-js?module_item_id=17581)
 - The navigation bar should still have the original blue color and white font color of the previous navigation bar.
 - The actual items of the navigation bar would stay the same (e.g. Home, Calendar, Ministries, etc.)
 - The items of the navigation bar should change background color to a darker blue `rgb(0, 0, 139)` when hovered.
 - The items do not need to be centered.
 - Add styles to the "Save Huell Now" link.
 - When unvisited, color should be blue.
 - TIP: [Use incognito mode](https://support.google.com/chrome/answer/95464?hl=en&co=GENIE.Platform%3DDesktop#:~:text=New%20Incognito%20Window.&text=Window)  (<https://support.google.com/chrome/answer/95464?hl=en&co=GENIE.Platform%3DDesktop#:~:text=New%20Incognito%20Window.&text=Window>) to reset links to unvisited.
 - When visited, color should be orange.
 - When hovered, color should be magenta.
 - When active, color should be lime.
 - Use key colors for each (i.e. the built-in, named colors)
 - Remove the horizontal line from the link.
 - Change the Other Ministries list into a table.
 - The table should have dotted borders.
 - The table should be striped white and light gray.
 - Use the image at the top of the page as your basis.
 - The table items should be colored a light orange when hovered.
 - You may use the Visual Studio color picker to select a light orange.
 - [Create a simple three piece gallery](https://kodego.instructure.com/courses/379/pages/4-dot-10-css-no-js?module_item_id=8622) (https://kodego.instructure.com/courses/379/pages/4-dot-10-css-no-js?module_item_id=8622) that spans the width of the page of the following images below the Other Ministries section. **Add your own description for each.**
